A "LOOP THE CAPITAL REGION" EVENT

Tuesday, June 10, 2014
Delmar Reformed Church
386 Delaware Avenue, Delmar, NY

"GET IN THE HEARING LOOP"

Sponsored by Hearing Loss Association of America, Albany Chapter

Attendees will have the special opportunity to meet and hear Juliette Sterkens, Au.D., national spokesperson for the American Academy of Audiology/Hearing Loss Association of America "Get in the Hearing Loop" (GITHL) campaign. She'll share her own highly successful personal practice experiences and how connecting to the hearing loop program enriches the lives of hearing aid and cochlear implant users.

Business, education, entertainment, theater, houses of worship, and municipal government representatives and t-coil users are encouraged to understand assistive listening systems and how to utilize telecoils and loop technology. It's a proven fact that hearing loop use improves attendance satisfaction, will make attendees happier and ensure repeat business! Bring a hearing aid with an activated T-coil and hear for yourself! Telecoils connect users to their community and telecoil/loop technology is emerging as the most-loved, user-friendly choice for hearing aid and cochlear implant users of all ages.

T-coil users: You will have the opportunity to "hear for yourself" in both the Fellowship Hall and the Sanctuary of Delmar Reformed Church how a hearing loop can enhance the listening experience for those with hearing challenges.

Schedule
