Durarail Railing Systems for Your One-Stop Decking Shop

Cable Railing System
for exterior or interior walkways

Cable Railing System
for view through decks with airflow

The Durarail™ system is an exclusive offering by authorized Duradek installers.

The advantage of Durarail is its simplicity. Everything snaps on or fits together with minimum on-site work and few exposed fasteners.

Durarail gives you a one-stop decking shop. When combined with Duradek's proven waterproofing solutions, your decking project has just one contractor and just one invoice .

….plus, your Duradek/Durarail contractor is specialized in waterproofing, so your railing installation will not compromise your waterproofing.
