TO: NACD Board Members, State Association Presidents and State Association Execs/Contacts *(Please share this message with your state's districts…thanks!)*

Thanks to the leadership of our NACD Urban and Community Resource Policy Group, we have a full year of great webinar topics. Below is the FY2014 schedule for our NACD Urban and Community Conservation Webinars. These will continue to be held the thirdThursday of each month although the time has been changed to 12:00noon-1:00pm eastern time.

We're still working on speaker recruitment as you'll see from the frequent 'tbd' below. If you are interested in giving a 20 minute presentation on any of those topics, or know someone who could do that, please let me know soon as you can.

I look forward to another interesting year of showcasing districts' urban and community conservation services and sharing information. Please feel free to contact me if you have any questions.
