# The Prerequisite Course "An Experience of the Summit"

**PURPOSE:** ***To create the space of listening to people authentically and to prepare for full participation in the International Black Summit.***

This one-day course will introduce you to or, if you have attended an Annual Summit Event in the past, immerse you once again in the conversation of the International Black Summit (IBS).

The purpose is to prepare you "to create the space of listening to people authentically" - a powerful tool for your life - and to prepare you to fully participate in the IBS.

This course will provide you with the IBS distinctions, the Annual Summit Event questions/declarations, and with today's IBS conversation.

The experience is one that you can use to become present to your vision and who you are being.
