Welcome to the Care and Counseling Center *of Georgia*

The Care and Counseling Center *of Georgia* is a nonprofit, interfaith organization offering counseling and pastoral care to individuals, couples, families, and groups.

What makes us different from other counselors or agencies is the experience, training, and perspective our staff brings to each client: an integration of sound clinical practice and a deep understanding and respect for the sacred self of every client. We meet you *where you are* on life's journey, supporting and challenging you with compassion and gentleness.

Our mission is "offering healing, wholeness, and hope to those in need, and educating others for this service."
