The Rise of Spiritual Intelligence and Evolutionary Creativity

AZFACT presents A Retreat for Women

Your experiences have provided you with the raw materials to create a life that is meaningful, joyful and spirit-fueled. Now you are poised at the edge of discovery and creation, the co-creator of a new consciousness. *Imagine* yourself the vessel of transmission, one chosen to birth the sacred in word, song, clay, image, dance. *Imagine* the power and the grace of the Divine moving through you as you become a visible, vocal agent of creative evolution today.

This workshop, designed for women, helps you harvest the *Wisdom* of your life so you can be a visible, vocal agent of creative evolution today.

Jan Phillips is a catalyst for original thinking and inspired action. A visionary creator, Jan brings video, poetry, and music to inspire evolutionary action for a just world.
