

BIO-GEOMETRIC INTEGRATION

An integrative approach to the philosophy, science and art of chiropractic

BGI-1 July 18 - 20, 2014

Essence Quality of Life Center, Carol Stream, IL

Presented by
Dr Sue Brown, DC & BGI Staff

BGI-1

The Foundational Concepts of BGI and the Posterior Geometry

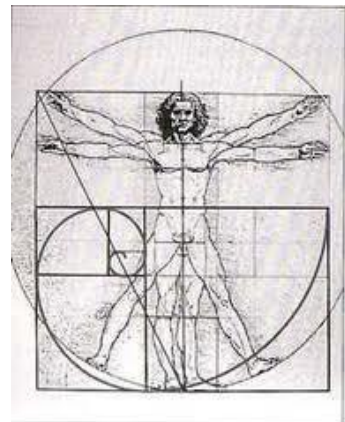

Experience what happens when the philosophy and art of chiropractic meet contemporary science. This seminar will deepen your clinical skills with the introduction of the innate geometry of the body.

Learn about tensegrity and how to use the awareness of dynamics and connection through the system, to bring greater mastery to your adjusting, regardless of your chiropractic technique.

Friday 7pm – 10pm
Saturday 9am – 7pm
Sunday 9am – 5pm

DC \$420 US
1st Yr DC \$300 US
Student \$270 US

(18) hours of Continuing Education available for all BGI-1 USA seminars for these states:
AL, CA, FL, GA, HI, IL, IA, MA, ME, MI, MO, NC, NH, NJ, NM, NY, OR, SC, TN, VT, WA & WI
