Flag Art

Supply the children with a variety of different pictures of flags from around the world. You can get pictures from a book at your local library or go online and search for images on websites such as Google, Bing or Yahoo. Discuss the country and where it is located on a map. Have the children recreate the flag with art materials such as construction paper, paint, markers, etc, or encourage children to create their own new flag.

Flag Memory Game

4. Construction paper

Obtain pictures of flags from around the world. This can be found online by doing an image search on websites such as Google, Yahoo, or Bing. Make two colour copies of each flag (they need to be about the same size). Then glue each flag to construction paper, cut and play memory.

Rules for Memory Game:

On each turn, a player turns over two cards (one at a time) and keeps them if they match flags. If they successfully match a pair of flags, that player also gets to take another turn.

When a player turns over two cards that do not match flags, those cards are turned face down again and it becomes the next player's turn.
