

# Manifesting Brilliance

*unlocking the Powerful Law of Attraction*

**Manifest** (vt) – to show plainly; reveal

**Brilliance** (n) – the quality of shining brightly, vividly, or intensely or displaying great intelligence or talent.

Earth travels around the Sun at about 67,000 miles per hour while rotating on its axis at a speed of about 1,000 miles per hour, and still, our feet remain firmly planted on the ground. In elementary school, we learned about the universal Law of Gravity and began to understand that this law explains why we do not float into outer space. We do not give it a second thought and accept gravity as something that simply “is.” Our universe is governed by other laws that have just as much impact on our lives as the Law of Gravity, but most of us are not aware of these laws or how to leverage their power. Law of Attraction is one such universal law. Law of Attraction is always at work in our lives.

I have been a student of Law of Attraction for many years without truly knowing what it was or how to deliberately create my life experiences by leveraging the power of Law of Attraction. I recall many, many times when my heart’s desires became manifest in my life, miraculously and seemingly overnight. Through powerful intention and attention (some may call it a form of prayer), I have landed jobs, attracted money, met certain people, and created opportunities for myself. You have too. Remember a time when you thought about someone you had not spoken to or seen for a long, long time. Perhaps your thoughts even elicited a powerful emotion and desire to reconnect with that person. Much to your surprise – in very short order – the very person of whom you were thinking may have called or crossed your path. These synchronicities are often explained away as coincidence, but they are evidence of Law of Attraction at work.

## *What is Law of Attraction?*

Simply stated as “Like attracts like,” Law of Attraction is a universal law which explains the powerful connection between our thoughts and our life experience. The study of Quantum Physics has uncovered interesting and revealing theories about the power of thoughts and their vibrational frequency. The entire universe is made of energy in a multitude of forms. Our thoughts (intention and attention) interact with the energies of the universe by creating a powerful point of attraction.

Great thinkers and spiritual teachers have been aware of Law of Attraction for centuries. Author James Allen wrote of the powerful connection between thought and experience in *As a Man Thinketh* (1902). As well, Wallace D. Wattles and Napoleon Hill wrote about the power of thought to attract prosperity in their books, *The Science of Getting Rich* (Wattles 1910) and *Think and Grow Rich* (Hill 1937). In 2006, Rhonda Byrne produced the film and book *The Secret*, popularized by Oprah Winfrey. Teachers such as Deepak Chopra, Marianne Williamson, Sonia Choquette, Louise Hay, and Esther Hicks (Abraham-Hicks) among others have devoted their lives to sharing their understanding of Law of Attraction with others.

Law of Attraction is a spiritual principle, not a religious belief. Understanding Law of Attraction may very well deepen your religious beliefs. Law of Attraction (in its purest form) does not contradict religious beliefs, nor does it attempt to replace one’s deeply held personal beliefs in God, however God may be defined.

## *Is Manifesting Brilliance for me?*

In a word, YES!! *Manifesting Brilliance* is for ANYONE who wants to play an active role as co-creator of his or her life experience. In *A Return to Love*, Marianne Williamson writes “our deepest fear is not that we are inadequate. Our deepest fear is that we are powerful beyond measure. It is our light, not our darkness that most frightens us.” Your participation in the *Manifesting Brilliance* course will lead you to overcome your fears and step into a deeply profound understanding of who you truly are.

## *Manifesting Brilliance - Group Coaching Program*

*Manifesting Brilliance* – Group Coaching Program is a 6-week course based on my personal study of Law of Attraction, as described in the writing and teaching of Sonia Choquette, Deepak Chopra, Marianne Williams, Neale Donald Walsch, Abraham-Hicks, Sanaya Roman, and Duane Parker among others. We will form a small, supportive group and embark on this journey together. The majority of the work will be done by you, but always with the knowledge that you are not alone. As your leader, I will encourage you and challenge you to take baby steps and leaps of faith. The group coaching sessions will provide a forum for sharing insights, asking questions, and digging deeper into the process of personal growth.

### *What Will I Get?*

By enrolling in the course, you will participate in 6 weekly teleseminars discussing topics ranging from career and income to relationships. You will have access to me as your Coach throughout the 6 weeks. You can check-in with me when you need an extra push. You will be invited to participate in an exclusive online community on Facebook. You will also have access to recordings of the teleseminar (for listening again or making up for a missed session). You will also receive handouts and materials to enrich the experience. You **WILL** get all of that – guaranteed!!

You might also awaken to a deeper understanding of who you are and your creative role in this attraction-based universe. You may become abundantly aware of your capacity to work with the energies in the universe and your own personal energies (thoughts) to create the brilliant life you desire. Through participation in this program, you might very possibly begin to truly believe that you can *be, do, and have whatever you want!*

### *How Much Does It Cost?*

You can join the six-week program for an investment of **only \$267**. As well, you will need to invest your time in attending the scheduled calls. You can even split the investment into two installments of \$139. Contact me if you would like to exercise that option.

### *Investment vs. Cost*

Before you start to take part in that all too familiar inner struggle between pursuing your heart's desire and holding tightly to your money, I invite you to ask yourself one question: "How much are you willing to invest in your own happiness?" I offer you my most sincere and heartfelt invitation to invest in yourself and to know that by saying "no," you are saying no to *yourself*. We all spend money on things that we believe will make our lives more comfortable or things by the having of which we hope to feel happier. I know for myself that many times after spending the money I am left feeling a bit *empty*. I have also had the experience of truly investing in myself with amazingly wonderful results. In those instances, I would have easily paid double or even triple what I had paid. Regardless of what you decide, know that you are perfect just as you are, for you have been created in the image and likeness of God/Universe/Source!

*Will you accept my invitation to join me in exploring the awesome  
Law of Attraction?*
