

## This RARE Act of Kindness comes to you in honor of...

### *Rare Disease Day* Why care about rare?

- ⇒ There are approximately 7,000 different types of rare diseases and disorders, with more being discovered each day.
- ⇒ 30 million people in the United States are living with rare diseases. This equates to 1 in 10 Americans or 10% of the U.S. population.
- ⇒ In the United States, a condition is considered “rare” if it affects fewer than 200,000 persons combined in a particular rare disease group.
- ⇒ Many have no approved drug treatment.
- ⇒ Learn more at <http://rare diseaseday.us/> and <http://globalgenes.org/>

In partnership with Snappin' Ministries Inc ([www.snappin.org](http://www.snappin.org)), Wisconsin Bleeding Disorders Network ([www.mywbdn.org](http://www.mywbdn.org)) & International WAGR Syndrome Association
