**LAURA'S STAFF PICK QUOTE:**

*"I have used this product for some time now and depend on it to help moisturize my very dry skin. I especially like the gentle exfoliation that the poly-hydroxy acids can provide; as well as, the Vitamin E content which will offer antioxidant protection. Any product that will help promote cell turn over in my mind...is a good thing! This product is a great all-around cost effective moisturizer for aging skin. Should you decide to use this product, I don't think you will be disappointed!"*

## NeoStrata Bio-Hydrating Cream

High strength Poly-hydroxy Acid, Vitamin E enriched, emollient cream that is suitable for all skin types.

During the winter months, our skin can lose moisture and become dry & flaky. Many factors contribute to this and this product can help fill the void.

**POLY-HYDROXY ACIDS BENEFITS:**

- Will inhibit the enzyme that can break down elastin
- Will gently exfoliate dull dry skin to smooth & soften
- Ideal for sensitive & dry skin types (even Rosacea patients)
- Gentler on the skin than AHAs
- Promotes cell turnover
- Attracts water to the skin
- Helps with fine lines
- Strengthens skin barrier

**VITAMIN E BENEFITS:**

- Can help prevent appearance of age spots
- Will help with skin roughness
- Offers antioxidant protection
- Helps maintain skin oil balance while cleansing
- Also strengthens skin barrier function
