Who Should Attend?

The training is relevant for staff involved in care coordination, or other functions for which knowledge about level of care instruments is important. This training is also appropriate for providers who will be using or interpreting the tool for Utilization Management Purposes. **This is a Train-the-Trainer class** so participants will learn how to train others within their organization.

What Will I Learn?

On the first day of the training participants learn about the LOCUS and how to appropriately use it. Participants also get "hands on" case study application of the tool to establish inter-rater reliability. In the afternoon participants will learn how to teach this content to providers within their local communities. On the second day of the training the same format will be applied to teach the CALOCUS.

Faculty: Elizabeth Burgess, LCSW
