# ULTIMATE BUFFING SYSTEM

**WURTH USA's Ultimate Buffing System. The fastest easiest way to remove the surface scratches in today's automotive finishes. If you have problems with swirl marks, dye back or hazy finishes after buffing, we now have the solution! Even if you're not having any particular issue, you can still save time and money by using WURTH USA's Ultimate Buffing System!**

# Electric Polisher

Easy to use polishing machine which includes a D-Handle and a Straight handle which can be attached on either side of the machine to accommodate both left and right handed technicians. The variable speed motor can go from 0-3000 rpm and can be controlled with the trigger switch so that the operator can control the amount of cut and polishing that the machine will output. The 11 Amp motor is strong enough for deep polishing jobs without the machine losing speed.

Backing and pads sold separately

### Features

- 3000 RPM, 11 Amp Motor
- 120V, 60 Hz
- Adjustable dial speed control
- Lock-on switch for comfort during extended use
- Auxiliary handle mounts either side for left or right-hand use

## Step 1: WURTH Ultimate Cutting Crème

WURTH Ultimate Cutting Crème is a specially designed compound that will remove 1000 grit and finer sand scratches from most finishes. As the product heats up during buffing, the physical grit in it breaks down gradually to leave a more uniform polish-ready finish. It can be used on fresh properly cured paint or aged and weathered finishes. WURTH Ultimate Cutting Crème is an excellent choice for Gel-coat as well.

For best results, use WURTH Black Wool Pad (Art. # 08799998) with WURTH Ultimate Cutting Crème to effectively remove scratches from all painted surfaces fast.

Medium Color	
Dark Color	
Recommended use with Black Wool Pad	1600 - 2200 RPM

## Step 2: WURTH Ultimate Polish

WURTH Ultimate Polish removes minor surface imperfections and oxidation from new and aged automotive finishes. Unlike most polishes, WURTH Ultimate Polish has no fillers or harmful silicones to fill scratches and hide defects. For highest gloss, use after compounding with WURTH Ultimate Cutting Crème.

For removing minor imperfections and oxidation, use WURTH Yellow Wool Pad (Art. #08799997). It is the ideal match for WURTH Ultimate Polish. The WURTH Yellow Wool Pad can also be used as a light compounding pad as well.

## Step 3: WURTH Swirl Remover

WURTH Swirl Remover is designed to remove swirl marks from fresh and cured paint surfaces. For the highest gloss finish available, use after compounding and polishing with WURTH Ultimate Cutting Crème and WURTH Ultimate Polish.

WURTH Swirl Remover works best with WURTH Blue Foam Soft Pad (Art. # 08799999). Some technicians will like the WURTH Blue Foam Soft Pad for polishing as well.
