

FREE training with 10.5 CERP credits for dental professionals.

Presented by the Virginia Oral Health Coalition, with grant funding from the Virginia Board for People with Disabilities.

Continuing education credits are provided through joint efforts between the Virginia Oral Health Coalition and The Virginia Dental Association, an ADA CERP recognized Provider.

Dental Care Approaches for Adults with Disabilities

October 17-18, 2014 | Chesapeake, Virginia

2145 S. Military Hwy
Chesapeake, VA 23320

Course Description

"Dental Care Approaches for Adults with Disabilities" is a free two-day continuing education course for actively practicing general dentists and auxiliary staff wishing to improve their skills in caring for adults with special health care needs (ASHCN). Dr. Matthew Cooke, a pediatric dentist and the Director of Healthy Athletes, Special Olympics of Virginia, will present a full-day lecture on day one, covering several topics related to dental treatment for ASHCN, including but not limited to: an overview of special health care conditions; patient behavioral guidance techniques; and, oral health assessment and prevention. Kami A. Piscitelli, RDH, Virginia Department of Health Special Needs Oral Health Coordinator, will provide a brief presentation regarding oral hygiene considerations for dental providers treating this population. On day two, participants will practice what they have learned in a hands-on clinical session on the following Saturday. Teaching methods include lecture, role-play, hands-on clinical training, and question and answer. All participants must be Virginia-based licensed, practicing dentists or dental staff. Dentistry training and licensure is required to participate. The speakers have no relevant financial relationships to disclose.

Learning Objectives

1. Identify one or two health conditions with orofacial complications related to treating adults with disabilities.
2. Identify alternative or useful methods for dental treatment on adults with disabilities.
3. Identify and/or demonstrate oral health care procedures and alternatives appropriate for adults with disabilities.

**** All participants will be required to provide proof of professional liability insurance. ****
