

MAGNIFICENT BE-ing

Illuminating that which we are

As With-In, So With-Out; As Above, So Below.

Join in on the event that teaches we are NOT physical be-ings living a spiritual life; we are spiritual be-ings living a physical life. In our time together we will be reaching into:

Integrated Synchronicity: All Life is sacred and interconnected. Life is one indivisible, evolving, participatory Whole. We are not separate from nature, universe, Self or God. Conscious relationships can be a sacred mirror for greater awareness, transforming limiting patterns and developing compassion. We integrate and experience synchronicity in all moments.

Binding Science & Religion: In this we come to understand the distortions of evolution and creation. Nature is self regulating and imbued with consciousness and intelligence. We source the life renewing energy of nature when we cultivate inner harmony and equilibrium. In this, we access higher levels of Consciousness.

Quantum Consciousness Delivered: We HEAR, KNOW, EXPERIENCE & BE the Quantum Consciousness through physics, biology, evolution and history as it manifests the understanding of *all that is* and our place *in that*. We define this by our intention and access to quantum consciousness. We are spiritual evolutionary BE-ings capable of transforming our human experience through cultivating higher states of consciousness and bringing this consciousness into everyday life.

OCTOBER 18th from 9am to 2pm
