BPI Building Analyst and Envelope Professional Standards Review - Before Certification or Recertification Testing

AUGUST 8, 2013
9-4

DO YOU WANT A BETTER UNDERSTANDING OF BPI STANDARDS?

THIS COURSE INCORPORATES CLASSROOM SHARING AS WELL AS DEMONSTRATIONS

The purpose of this one day course is to review the BPI Standards and practice skills in preparation for taking the online and/or field exams.

This course is not for beginners.

This course is for those who already have business science knowledge.

A. Tamasin Sterner has presented this training to dozens of BPI candidates and program managers. She and her staff coach energy technicians at every opportunity. She is a certified BPI Building Analyst Professional, Envelope Professional, Heating Professional and Multi Family Building Analyst.

TAMASIN & LARRY ENCOURAGE QUESTIONS

Larry Armanda taught at the Weatherization Training Center at PA College of Technology in Williamsport. He has trained contractors in classroom settings and onsite. He is a Level I and Level II Thermographer and a certified BPI Building Analyst Professional, Envelope Professional, Heating Professional and Multi Family Building Analyst.
