

SUPERFLO® VS Variable Speed Pump

new!

NEW! SuperFlo VS Pump offers the energy efficiency of Pentair's variable speed pump technology to a lot more customers

Now that Pentair has combined the affordability and replacement ease of this innovative new pump with 115/230V capability and energy savings up to 80%, your opportunities for pool pump upgrades have increased enormously. Add in a real-time, 24-hour clock and an advanced digital keypad, and you'll agree SuperFlo VS is the most versatile replacement pump in its class.

new!

SUPERFLO® VS Variable Speed Pump

SuperFlo VS Pump features include:

- Only variable speed on the market today with 115/230V capability.
- Easy-to-read display makes programming and monitoring a cinch.
- Real time clock; no need to install a separate external unit.
- Three operating speed settings plus override/quick clean capability.
- Simple, intuitive user interface displays watts, RPM and remaining program duration.
- Wiring is easy and unlike other pumps, the electronic board is not exposed to exterior elements at installation.
- Tough, engineered polymer pump body and durable, total enclosed fan cooled (TEFC) motor gives years of trouble-free service.
- 115/230 volts, 50/60 Hz single phase.
- UL 60730 Compliant.
- ENERGY STAR® Certified.
