### Here's what recent participants of this training are saying:

*"This has been the most interesting and informative training I've attended."*

- Gail Wally, Harm Reduction Services,  
Health Educator

*"I received a lot of information that helped me 'see' people so I can address their situation. Thank you for the training."*

- Sandra Chaplin, Unity Hall  
Recovery Communities, Volunteer

*"I think this training should be offered to the professors in the MSW program."*

- Andrienne Hament, LA County,  
Department of Mental Health

Health Care Reform has ushered in an era of integration that is changing the service delivery landscape for substance use, mental health and primary health care providers. The new focus is on behavior changes required to prevent and manage chronic diseases, and reduce the skyrocketing costs associated with them.

Join us for Treat Them Well, a two-day training that will provide you with a thorough understanding and hands-on experience in the use of powerful behavior change skills, including Screening, Brief Intervention, Motivational Interviewing and Appreciative Inquiry, along with strategies for coaching behavior change across multiple treatment settings.
