# Coastal Navigation (ASA 105)

~~\$395~~ ~~\$375~~, Members ~~\$355.50~~ **\$325**

**Navigation skills are important** for all boaters, and *especially for sailors*. Today's gadgets and apps help, but the knowledge and skills *to use* that information is essential to sailing Northwest waters or chartering in unknown and exotic locations.

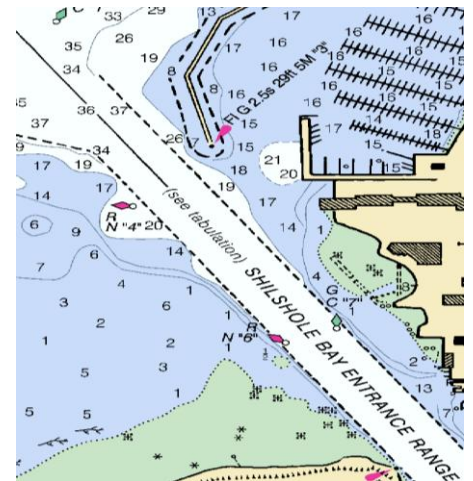

Navigation teaches you how to plan a trip, plot highly efficient courses, and avoid the multitude of hazards using a variety of tools and knowledge. "Wind & waves favor the ablest navigator" when sailors learn to use currents, tides and weather to their advantage. Then cruising truly becomes an art.

Coastal Navigation encompasses a variety of techniques and equipment needed to safely maneuver a sailboat in coastal waters. Coastal Navigation is a comprehensive classroom course and is highly recommended for anyone planning to boat in navigable waters. The class is approx. 20+ hrs with four 4hr classroom sessions, test preparation and testing. All of our instructors are accomplished navigators who are licensed USCG Captains and certified by the American Sailing Association (ASA).

### Topics Include:

- Chart reading
- Course plotting
- Set & drift
- Leeway
- Tides & currents
- Dead reckoning
- Variation
- Deviation
- Navigational Tools
- Electronic aids

The course exceeds all ASA requirements for the Coastal Navigation (ASA 105) certification, which is achieved upon successful completion of the written exam. The ASA 105 certification is a pre-requisite for advanced ASA certifications.

**Prerequisite:** A desire to sail more efficiently and safely

**Materials:** Included is David Burch's Inland and Coastal Navigation (from Starpath), supporting exercises, and ASA certification.

**Dates & Additional information** are available at [www.islandsailingclub.com](http://www.islandsailingclub.com), or contact us with any questions....

**Guarantee:** If you're not satisfied with the course, you can retake the course at no additional charge.

**Call 1-800-303-2470 to sign up today or email**
