NavMPS Engineering Support	10M to 50M	Y	Small Business Set Aside	410000E	NAWCWD China Lake CA or Pt Mugu CA (N68936)	2QFY13	3QFY13	5 Years	Brandis	Pt Mugu, CA	Seaport-e	Engineering support to accomplish systems engineering functions that are aligned to its Mission Planning Environment (MPE) Lead Guide Book; the guide defines and organizes the effort into repeatable development phases with specific artifacts required of the supporting disciplines that establish the integrated mission planning system.	N0017804D4143 M806
EW SITE system	5M to 10M	N	Sole Source	412000D	NAWCWD China Lake CA or Pt Mugu CA (N68936)	4QFY12	2QFY13	3 Years	N/A	China Lake, CA ; Pt Mugu, CA	N/A	Radio Frequency (RF) Electronic Warfare Systems Integration Test Environment (SITE) system, upgrade to an existing system currently at China Lake, and maintenance for all EW SITE and EW SITE Lite Systems for the Advanced Weapons Laboratory (AWL) located at China Lake, CA and Pt Mugu, CA.	N/A
F/A-18 SCS	50M and Over	N	Sole Source	412000D PMA-265	NAWCWD China Lake CA or Pt Mugu CA (N68936)	4QFY12	4QFY13	5 Years	Boeing	St. Louis, MO; China Lake, CA	N/A	System upgrades for the F/A -18 and EA-18G aircraft, including Foreign Military Sales (FMS) variants based on System Configuration Set (SCS) life cycle phases. System improvement and demonstration products such as proposed prototypes, pre-production products, and support equipment enhancements, or simulations and models of weapons systems. System improvements will also provide obsolete parts replacements, improved processors, and technology demonstrations. Benches, hardware modifications, Weapons Replaceable Assemblies (WRAs), software models, non-recurring Engineering Change Proposals (ECPs) and studies. Analysis and definition of statements of requirements identified by the Government and correction of anomalies in software or hardware identified after release to the Government for OT and during fleet utilization of the SCS. Support	N6893609D0002
Tool Support for the development of EW system User Data Files (UDFs) and Mission Data Files (MDF)	650K to 5M	N	Full and Open Competition	412000E	NAWCWD China Lake CA or Pt Mugu CA (N68936)	1QFY13	2QFY13	3 Years	Lockheed	Contractor Work Site	Seaport-e	Software engineering services in support of tools for the development and test of EW system User Data Files (UDF) and Mission Data Files (MDF), and for the generation of software and documentation to support the implementation of the SP software into EW systems. Major EW systems to be supported are primarily radar warning receivers, tactical electronic jammers and dispensers that are deployed on foreign military platforms.	N0017804D4079 GM01
Electronic Warfare Support Equipment Integrated Product Team Support	5M to 10M	N	Full and Open Competition	412000E	NAWCWD China Lake CA or Pt Mugu CA (N68936)	1QFY13	3QFY13	3 Years	Northrop Grumman Space & Mission Systems Corp.	Contractor Work Site	Seaport-e	Engineering services that support the design, development, evaluation, and deployment of EW SE Systems that work with the AN/USM-670 EW Test Set, the AN/USM-713 Swept Frequency Measurement Test Set and the Handheld Radar Simulator (HRS) Test Set	N0014704D4091 GM03

**\*\*DISCLAIMER\*\*** United States Code Title 15, Section 637(A) (12) (C), requires the Department of the Navy (DoN) to prepare a forecast of expected contract opportunities for the next and succeeding fiscal years and make the forecast available to small businesses. We fulfill this requirement by publishing this Long Range Acquisition Forecast (LRAF) and updating the information on an annual basis. The LRAF contains NAVAIR requirements valued at \$150,000 or more that are forecasted for the upcoming and next two fiscal years. The forecast is for informational and marketing purposes only. It does not constitute a specific offer or commitment by the Navy to fund, in whole or in part, the opportunities referenced herein. This listing is not all inclusive and is subject to change.
