

Wheaton Community Survey on Youth Drinking

We want to hear from youth, parents and other adult community members to learn how easily young people can obtain alcohol, how often and how much they drink, the perceived risks or consequences and what promotes or deters underage drinking.

(We especially want to hear from youth and young adults ages 12 through 20 and adults who live in zip codes 20902, 20904 and 20906)

Online surveys are **now open** for youth and adults.
All responses are **anonymous**.

Youth, go to <https://www.surveymonkey.com/s/YouthSurveyAlcohol>

Adults, go to <https://www.surveymonkey.com/s/AdultSurveyAlcohol>

Survey results will be used to obtain state funding to carry out efforts that will lead to a decrease in underage drinking in the Wheaton community and throughout the county.
