# MPPS Glossary – SIC Category Detail

---

TSG’s MPPS Standard Industrial Classification (SIC) report categories are loosely based on the United States Department of Labor’s Occupational Safety & Health Administration (OSHA) SIC manual. In certain instances TSG has placed given SIC’s into categories that are more meaningful from a merchant portfolio perspective. The OSHA SIC manual is segmented into Divisions (A through J), the Divisions are then separated into Major Groups, Major Groups are separated into Industry Groups, finally the Industry Groups are separated into the individual SICs. Below is a graphical representation of this structure.

The following pages list all of the SICs included in each of the 14 MPPS SIC Categories. There are a number of SICs in the MPPS database that are no longer reported in the OSHA SIC Manual as they are currently moving toward the NAICS system. In the cases in which a given MPPS SIC is not reported in the OSHA Manual an N/A will appear. The next column, however, includes the next available level of data in which that given SIC would belong according to the above chart hierarchy to give the MPPS readers perspective as to where/how each SIC is placed in the OSHA SIC manual and its industry description.
