**One Book, Every Young Child**

**2014 Title**

***Stripes of All Types***  
by Susan Stockdale

***Stripes of All Types*** explores how animals around the world benefit from their stripes through engaging rhymes and bright, bold images. Each striped creature is described in action in its natural habitat. The book ends with a fun game for children to guess what animal the given stripe pattern represents. There is also a glossary that includes information about each animal.

**One Book, Every Young Child Program Goal:**

To increase awareness of the importance of reading and engaging children in stories among adults with preschoolers in their lives

How can we reach our goal? By asking adults with preschool children in their lives to read and talk about *Stripes of All Types* during April 2014
