## ORGANIZATIONS WORTH KNOWING

**B Lab** is the nonprofit organization that serves a global movement of entrepreneurs using the power of business to solve social and environmental problems. B Corps are certified to meet rigorous standards of social and environmental performance, accountability, and transparency. Today over 1,000 companies, large and small, have attained Certified B Corp status including Energy Opportunities (a part of 7group which is currently pursuing certification). B Lab also promotes legislation at the state level to create B Corporations as a legal entity, with 26 states, including Pennsylvania, creating a new type of corporation that best meets the needs of entrepreneurs and investors seeking to use business as a force for social and environmental good.
