

# Camp Quinebarge

*a traditional boys and girls summer camp for exploring, growing and making everlasting friendships...*

## A Great Summer Camp Experience

Camp Quinebarge is a traditional co-ed summer camp allowing 100 great kids aged 7-15 to be actively learning, creating and having fun all summer long. Founded in 1936, Quinebarge sits on over 65 acres of idyllic woodland and 1,250 feet of pristine Lake Kanasatka in the heart of New Hampshire's mountains and Lakes Region.

Quinebarge encourages campers to challenge themselves and to try new activities in a safe and supportive setting with staff helping each child grow, learn, and achieve their goals. We foster a spirit of community, cooperation and respect for nature embedded into our rich tradition of camp life that includes outdoor activities, campfires, songs and skits, and cabin living. Campers develop memories and friendships that will last a lifetime.

## Camper Program

Campers are active all day at Camp Quinebarge with over 20 regular daily activities. Our waterfront program, conducted according to the American Red Cross, offers daily swim instruction along with sailing, canoeing, kayaking, surf-biking and paddle boarding. A full range of sports is offered, from traditional field and court sports to archery and climbing on our wall and high ropes course. In our Nature and Environment program, campers learn to respect the Earth through hands-on activities as well as walks through our extensive trails.

Our popular horseback riding program includes lessons from qualified instructors in both ring and trail riding and horse care. Quinebarge has both horses and ponies for campers to ride.

Quinebarge's crafts program features woodworking, pottery, and painting as well as traditional and eco-oriented arts and crafts activities.

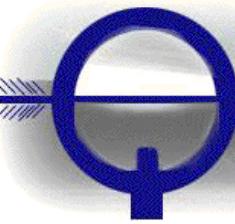

We also offer a robust trips program of hiking, canoeing, overnights, cabin excursions and weekly all-camp trips. Evening activities involve all-camp activities such as capture the flag, camp fires, skit nights and socials.

Quinebarge offers a fun and busy schedule that keeps campers active and engaged all summer long.

## Cabin Life

Cabin life at Quinebarge enables campers to make friends and bond as a group, live with their peers, experience some independence and enjoy living in a rustic setting surrounded by nature. Campers are responsible for keeping their beds, cubbies, and personal areas tidy, and for working together to clean their cabin, clothesline, and grounds around the cabin. Each day one camper per cabin is assigned as a waiter for meals.

Campers sleep in their cabins and spend rest period after lunch and some other time in the cabin. They have time to read, play games and discuss the meaning of the cosmos with their friends. With a remarkable camper-to-staff ratio of just 3-to-1, there is always a counselor available.

Our goal is to foster a nurturing environment for all children, where they can grow as individuals and as a group.

## Camp Fires, Monkeytown and more ...

Quinebarge offers both the myriad traditional camp experiences and some found only at our summer home. Camp fires are a staple of camp, with weekly fires overlooking the lake at Piney Point, where we have singing, skits and stories, along with s'mores. Group areas and cabins also have their own camp fires and cook outs, and campers learn how to safely make, maintain, and extinguish camp fires.

Homegrown to Quinebarge is Monkeytown. For over seventy years, Monkeytown, with its own mayor, money, Olympics and Carnivals, serves as a focal point for camp life not seen elsewhere. Cabins work together to decorate their piece of Monkeytown, and offer a concession and game for campers to play at the carnivals.

Camp Quinebarge harkens to a time of kids being kids, without the distractions of modern life, exploring the natural world around them, developing friendships that will last forever, telling stories, singing songs and playing games in a safe, fun and nurturing environment.
