

Data is Driving Business, Are You Ready

TO KICK START YOUR DATA DRIVEN CAREER?

Data is everywhere and sprouting from new sources every day. Organizations are looking for fresh smart minds that know how to harness this data and use it across the enterprise to maximize its potential. From IT to business to marketing, they need strategies and technology that enable their data to drive smarter decisions. They must become data driven.

Is a Data Career in your future?

The 2014 PARTNERS Conference is the perfect opportunity to experience, learn, and ask questions. By attending you will join leading data executives, analysts, data scientists, technologists and marketers – everyone at the forefront of the data-driven future. Learn from the experts and hear about their innovative methodologies and applied technology that touch every area of business and life. These professionals are looking to connect with young talent for career opportunities.

Special Academic Rates – Just \$250 for students and \$500 for faculty!

For 2014, Teradata University Network (TUN) has a special discounted rate and special events to make sure you get the most out of your time. Also with the debut of our Student Poster Contests, finalists will be sharing their research and work with conference attendees.

Student Opportunities Include:

- [Special Teradata University Network events just for student attendees](#)
- Open Q&A sessions with FORTUNE 500 companies and recruiters
- Connect with Teradata University Network! (TUN)
