**SOS CHILDREN'S  
VILLAGES  
ILLINOIS**

SOS Children's Villages Illinois offers an alternative to foster care, that centers care around neglected and all facets of home and lives. SOS provides abandoned, abused, and neglected children a home and a community to nurture them to adulthood. SOS Foster Children have the unique opportunity to live in SOS Villages with their biological brothers and sisters in an SOS single-family home with a full-time, professionally trained foster parent. They receive an abundance of services and resources to heal emotional and physical wounds allowing them to concentrate on living and growing instead of merely surviving.
