

A Different Kind of Summer Program

Summer here in Minnesota seems like a fleeting moment (especially after a winter like this one). Saint Thomas More embraces this notion and promotes it. The needs of children and families are different in the summer than in the school year. Children like to spend weeks at grandma's house and go to camp and have play dates and take vacation, seemingly all at the same time. But, they can also "get bored" and need a change of pace.

Saint Thomas More Preschool and Extended Day for School Age Children offers a flex-enrollment option for children and families. Children can attend STM Summer based on family scheduling, on specific trips or activities that are offered. Families are asked to preview a calendar a month at a time and select the dates that you want or need to spend the day. Are you a fan of arts-n-crafts and going on an excursion like Crystal Caves? No need to commit for the week, simply select those activities. Is grandma looking to spend a little time with her grandchildren? No need to fret over "vacation" weeks and excess tuition commitments. Simply do not commit to those dates that the children will be at grandmas, at camp or on a play-date. It's that simple. *STM's Summer Program is open to all children in our community regardless of school choice.*
