

SMALL BUSINESS ENERGY EFFICIENCY PROGRAM

Free assistance and instant discounts

IMPROVE YOUR BOTTOM LINE

Your small business could reduce its natural gas usage and the costs associated with inefficient equipment by participating in the Small Business Energy Efficiency Program (SBEEP) offered by the Nicor Gas Energy Efficiency Program.

SBEEP offers free assistance and instant discounts to small business owners looking to reduce their energy usage. If you own or operate a small business such as an auto shop, coin laundry facility, restaurant, dry cleaner, motel or manufacturing facility, you could start saving now. Our qualified SBEEP Trade Allies will assist you every step of the way to help you achieve energy savings for your business.

THE PROCESS IS SIMPLE

- 1. Choose a qualified SBEEP Trade Ally.** Call us today at 877.886.4239 to receive a list of qualified energy experts to review your facility's energy usage.
- 2. Get your free energy assessment.** After a short on-site assessment, the SBEEP Trade Ally will provide a report that recommends energy-saving improvements that may include:
 - **FREE** programmable thermostat scheduling/installation, steam trap repair or replacement, and energy-efficient showerheads, faucet aerators and pre-rinse sprayers.
 - Furnace or boiler tune-ups, boiler reset controls and guest room energy management with instant discounts of **up to 80% off**.
- 3. Start saving today with instant discounts.** During installation, your selected SBEEP Trade Ally will provide you with available instant discounts—**up to 100% off**—on energy-saving improvements. No hassles, no additional forms to complete and no waiting for a rebate check in the mail—you only pay the balance due after the discounts.

ELIGIBILITY

SBEEP is available to assist most small businesses that use less than 60,000 therms of natural gas per year. Don't know your yearly therm usage? One of our SBEEP Trade Allies can help determine your eligibility.
