

## **Alliance Française**

### **Student Feedback on Summer Term 2013 Classes**

*This has been one of the best education experiences of my life.*

*I love the environment and how this Alliance is run. I will definitely continue to take classes here.*

*Variety was perfect: text, class including blackboard [use] and explanation, audio, video, role- play, devoirs.*

*[Class] was fun. I felt there was a good balance of grammar vs. speaking.*

*I liked the humor and encouragement that [my teacher] used during class. He created an atmosphere that allowed us to risk without embarrassment.*

*Really appreciate the immersion aspect and the ability of the teacher to be able to help us interact in the language.*

*Greatly appreciate the free makeup sessions as it allows me to stay on track if I need to miss a class.*

*My favorite aspect was learning subtleties and nuances of pronunciation in French. Doing this with others and learning from each other's mistakes and successes was also helpful.*

*[My teacher] was never intimidating and has a great sense of humor. I felt comfortable speaking up, asking questions and making mistakes. I also enjoy that he taught us not only the French in the text, but also the "real" French that is commonly used in conversation in 2013. I look forward to taking another class with him!*

*I signed up to have the opportunity to speak and learn from speaking. I was able to do this using a variety of subjects thanks to the style of the class and the use of the text.*

*The class size is perfect, which helps involve each student in the class activities and offers us more chances to speak French. And I enjoy learning about the French culture too.*

*My favorite aspect of the class was the advanced grammar exercises that we did using a superb workbook.*

*[My teacher] is one of the best language instructors I've ever had. And I've been studying languages since 5th grade. French is my third language.*

*[My teacher] does a good job of engaging the class and ensuring that everyone has equal speaking time, and feels comfortable.*

*I like the friendly atmosphere of the class-- learning French and having a good time too. There is not the pressure you would expect in a school room atmosphere. I like also learning about the French culture, the food, geography [...].*

*I felt [my teacher] was really good at going at a pace that matched the students in the class and giving extra optional homework to those who want to push themselves more.*

*The make-up classes are invaluable to me. I will need one again next term due to travel plans.*

*I recommend the classes all the time!*

*Very small intimate classes. I liked that. VERY supportive. I know so much more now than when I started that is for sure.*
