

Presenting...

#InstaSocial

*An innovative **social skills group** designed for adolescents to teach the importance, safety, and appropriateness of **real world relationships** vs. **virtual relationships**.*

In a world flooded with social based technology, such as *Facebook*, *Instagram*, and social gaming sites, it is difficult for some of our adolescents to understand the social rules, boundaries, and language associated with communicating safely and appropriately in these environments. Furthermore, it can be difficult to preserve the quality of interpersonal relationships, when there is a computer screen to hide behind. *Cornerstone Speech Therapy* and *Central Ohio Behavioral Consulting* are partnering together to bring you a social group that focuses on both interpersonal social relationships, as well as online social relationships. Each session will be led by a licensed speech-language pathologist and a board certified behavior analyst.

When: *Wednesdays, June 11-July 16, 2014 (6 sessions)*

Time: *10am-11am*

Where: *All Shepherd's Lutheran Church
Lewis Center (off of Route 23)*

Who: *Preteens and Adolescents (ages 10-14) and Caregivers*

Cost: *To be determined (Delaware County funding accepted)*

Call (614) 813-5518 to register today!
