ADULT COMMUNITY INTEGRATION PROGRAMS

MarbleJam Kids programs for adults with disabilities provide a supportive and enriching opportunity for skill building, social integration, relationship building, and emotional wellness. All groups are well supervised by licensed therapists, trained instructors, and paraprofessionals. Below are the current programs available for adult age individuals with disabilities and other special needs. The fine art program assists students in strengthening the foundation of their artistic practice through the overview of terminology, history and genre. Class flow generally covers a short lecture and slideshow with discussion. Program will be modified and individualized for advanced students and students with exceptional conditions.
