Happy Hands is a school for children who are deaf, with hearing loss or with communication disorders, age 0-6 years.

A child learns seventy-five percent of language by the age of three. If the early window is missed, it is rarely recouped. Without specialized early language education, the average reading level of a deaf adult has been only third grade. Happy Hands opens the world of communication to the deaf child and his family.

Don't miss this evening of fun and challenge.

Friends and family may join the fun as the audience. They will be able to follow along with the questions and results, purchase a meal, and even compete as an individual for \$50.
