

Features of the **Toyota Sienna** with Auto Access:

- The Toyota Sienna has a **built-in electric track** allowing the **“Swivel Seat”** to come clear out of the car. Passengers with mobility issues can sit down as if they are sitting on a chair.
- Arrives at the dealer already installed, **saving us a \$13,000 - \$17,000 conversion process.**
- We may receive an additional **\$3,500 discount from Toyota Carson** which would further reduce costs. We will also apply to Toyota Corporate for a **\$1,000 refund** toward mobility costs.
- The Sienna is highly rated by Edmunds and Consumer Reports, and has **excellent safety features, efficiency and reliability.** It is constructed from Reinforced Steel Unitized Body.

Advanced safety technology includes:

- Toyota’s Stability Control System
- Anti-lock Brakes, Brake Assist & Smart Stop Technology
- 3-point Seatbelts, Active Headrests and Advanced Airbag System

We are so grateful for any and all help you can give us.

_____ (Please cut here and include with gift) _____

I’d like to help the Sisters in the Villa!

Here is the amount I am sending toward a new accessible mini-van:

- ___ **\$35** buys our first **Oil Change**
- ___ **\$99** buys a **Battery** for the V6/3.5 L Engine
- ___ **\$164** equips us with **2 Standard Tires**
- ___ **\$328** equips us with an entire **Standard Tire Set**
- ___ **\$2,905** pays for the **“Swivel Seat”** (after deducting Toyota’s access refund of \$1,000)
- ___ **\$ 4,850** takes care of the **Tax, Title and Registration**
- ___ other _____
