

The Tire-Less James

Saturday, September 13th

Volunteers are needed to remove tires from the James River.

The James River Association is partnering with Virginia Canals & Navigations Society, the Heart of Virginia Council Boy Scouts of America and Bridgestone Americas LLC in the second annual **Tire-Less James** event.

This is a water cleanup, volunteers must supply their own boats and equipment that are appropriate for safely floating tires down their selected section of river.

If you do not have access to canoes, consider contacting a local outfitter about renting boats for the day to help the James.

.....
Sign up now to remove tires from a section of the James River.
Register your group for cleanup section online.
