

Ganba Kobe Cat Club 6x6 Ring Show At Kobe Port Terminal – JAPAN

In every show of this club, Ganba Kobe Cat Club, has been supported CFA Ambassador Program very well. I took CFA ambassador Cat Raptor and showed Raptor's son in championship. As usual, Masanari took care of both cats and I took care of exhibitor and spectator. I attached several pictures of Raptor, Masanari and spectators at show hall. Raptor can make a friend in every show hall, I know. However, especially he likes this young girl.. We were so surprised to see Raptor wanted to be friendly, especially with this girl. I asked her if she had cats in her home. She said " Yes." Her parents had some Maine Coon Cats. (I feel she will be a nice breeder.) I felt she was just like a CFA Allbreed veteran judge. Raptor seemed he was having a very nice time. There were also young students from Kobe Animal School. Some has cat and some has no cat. The students also had so nice time with Raptor. I attached picture of them. Several group pf ladies and young ladies came to see Raptor by turns one after another. Because club gave us so nice and enough benching place that every spectator could find out Ambassador Booth soon. I prepared 100 ambassador pamphlets and left only 10 !

This was great number of spectator in Japan! I appreciate Ganba Kobe Cat Club for their great support for CFA Ambassador Program. Thank you Masanari and Raptor. Their team play is wonderful !

Next show will be Osaka Philocat Society. We hope there will be many cat exhibitor and spectator.

Masanari and Takako Kojima.
Ambassador RCs – Region 8

International Division - Phebe Low, Intl Ambassador RC writes:

CFA International Division
International Awards Cat Show 2013
Kuala Lumpur, Malaysia

The international division awards show 2013 was held at a hotel shopping mall, KL, Malaysia. I had the booth set up at the show hall entrance. Brought with the CFA yearbook, past ID awards booklets, CFA annual awards booklet across the miles from Hong Kong to Malaysia for exhibition. Of course, as usual and important, spectator guides for distribution.

Visitors there were new to cat show or cat breeds. Most of them were families with young children, curious to see what's going on inside the hall. Children's eyes were sparkling when seeing real cats being handled by judges in rings. They stopped by at our booth and looking at the yearbooks. Feeling excited when found the similar cats that they saw. I enjoy the moment in particular seeing the kids' amazing faces while they were looking at the beautiful cat photos.

Exhibitors from around the countries were also interested to visit the booth and read the displayed booklets, asked about the program and shows information. It is also a very precious chance to talk with vendors from other booths. They were all cat lovers too. We shared about cats and how joyful having cats at home. Yes, Ambassador Program is not just for spectators but also for exhibitors and people next to you! We need to keep our hobby forever young and introduce the adorable program whoever you think appropriate.
