

# YOU can make a difference in local manufacturing!

St. Petersburg College and Florida TRADE are working with the Bay Area Manufacturers Association and Upper Tampa Bay Manufacturers Association to train your future employees.

### Share your expertise:

- Offer technical expertise
- Provide job descriptions for your entry- and mid-level manufacturing positions so we can make sure our training is on the mark
- Offer curriculum feedback
- Serve on SPC's college manufacturing advisory board

### Hire qualified interns and employees that you have helped prepare

- Hire Florida TRADE participants. We look forward to sharing resumes with you that may prove a good fit for your operation
- Take a Florida TRADE participant on as a Paid Intern

### Encourage prospective students to consider a career in advanced manufacturing:

- Host a tour of your plant
- Add the Florida TRADE logo to your website in support of the program
- Join the manufacturers speakers' bureau to keep students informed and interested
- Encourage young people, veterans and people wanting to change careers to enroll in TRADE courses
- Participate in the Florida Dream It Do It Adopt-a-School Program to funnel young people into TRADE manufacturing programs

This material was funded in whole by a \$15M TAACCCT grant awarded by the U.S. Department of Labor's Employment and Training Administration.
