

North Dakota Highway Patrol

Description of Each Permit Type:

Bridge Length - Single Trip: This permit authorizes more than 48,000 pounds on a group of 4 or more axles. Weight is determined by the federal bridge formula. Gross Vehicle Weight not to exceed 80,000 pounds.

Fuel: This permit is needed when you are not a member of the International Fuel Tax Agreement. The fuel permit is valid for 72 hours or when the vehicle leaves the state, whichever occurs first.

Interstate - Single Trip: This permit is issued for legal size divisible load vehicles exceeding the federal gross vehicle weight cap of 80,000 pounds for movement on the interstate highway system. This permit will be valid for multiple movements in one 24-hour period or a one way trip not to exceed 72 hours.

Longer Combination Vehicle (LCV): This permit allows Longer Combination Vehicles to increase weight from 105,500 pounds to 131,000 pounds depending on outer bridge distance. Valid only December 1 through March 7.

Motor Vehicle Temporary Registration (*Non-Resident Custom Combine Only*): Nonresidents gainfully employed in this state and driving vehicles that are not registered with the state of North Dakota are subject to temporary registration for a minimum of 6 months.

Mobile Home - 3507: This permit is issued for transport of manufactured housing units exceeding 8' 6" in width, 14 feet in height, and 60 feet in length.

Oversize - 3507: This permit is issued to any load exceeding legal dimensions and weights, over 8'6" in width, and over 14 feet in height. Does not include Mobile Home or Work Over Rigs.

Request Permit Extension: To request a date change to an existing permit. You will receive an addition 3 days to complete your trip after you have provided an explanation as to why the extension is needed.

Special Mobile Equipment - SFN 3507: A non reducible self-propelled vehicle that is over-dimensional or overweight. Ex: cranes or scrapers. Does not include Work Over Rigs.

Trip Permit: Permit required in lieu of ND vehicle registration (not an oversize permit). Applies only on vehicles of NON-resident carriers and is valid for 72 hours.

Work Over Rig (WOR) - SFN 3507: A work-over service rig is a non-reducible self-propelled vehicle that exceeds ND legal vehicle size and weight limits. A single trip permit is required when traveling on the state highway system.

Multi-Trip Permits:

10% Weight Exemption: Increase weights by either 10% over bridge distance or 10% over axle weights, whichever is the least amount. Harvest 10% is valid from July 15 through November 30. Wintertime 10% is valid from December 1 through March 7. Not valid on interstate or any county roads.

Combine Permit: Non-resident and resident custom combiners working in the state. Used for transporting over-dimensional combines or combine headers.

Seasonal Permit: This permit authorizes commercial movement of any one of the following overwidth vehicles or loads: hay, grain cleaner, hay grinder, forage harvester, fertilizer spreader and agricultural chemical applicator being transported by another vehicle; and for the movement of overwidth and overweight self-propelled fertilizer spreaders and self-propelled chemical applicators. A seasonal permit is valid from January 1 through December 31.

Annual Permits:

Approved Equipment: Allows additional weight to a triple or quad axle. Not valid on interstate or any county roads.

Bridge Length - Annual: This permit authorizes more than 48,000 pounds on a group of 4 or more axles. Weight is determined by the federal bridge formula. Gross Vehicle Weight not to exceed 80,000 pounds.

Interstate - Annual: Annual interstate permit which allows unit to exceed 80,000 pounds on interstate systems as long as weights are legal.

Overwidth (Commercial or Fish House): This permit is for the movement of overwidth vehicles and loads that do not exceed 14 feet 6 inches. This permit only covers overwidth and does not include over height, over length or overweight.
