## CLUBS & ACTIVITIES

It is the philosophy of Sanborn Regional High School that much of what is valuable about the high school experience takes place outside of the traditional classroom. We encourage students to develop, and maintain, connections to the school community by becoming involved in activities that they have an interest in or already have a talent for. We are committed to offering a wide range of activities for all students to become involved in. The variety and availability of these programs is something we are proud of and we would like to see all students take advantage of our co-curricular program.
