The Richardson Cancer Prevention Diet

Hi, I am Dr. Janet Starr Hull. At this website I introduce you to the late Dr. John Richardson, M.D. and his pioneering work in the alternative cancer industry. I revived Dr. Richardson's cancer prevention program in the Richardson Cancer Prevention Diet. This book combines Dr. Richardson's case histories, philosophies, and approach to cancer prevention, along with "old-fashioned" dietary principles that may save your health or help the life of someone you love.

Dr. Richardson's dietary plan rediscovered medical history. In the 1960's he revealed:

- Cyanide-containing vitamin B 17 arrested, enclosed, and even prevented cancer
- A lack of digestive enzymes was a major contributing factor at the root of cancer

"Instead of patients spending their final days or years butchered in surgical theaters or micro-waved in chemotherapy and radiation rooms," Dr. Richardson wrote in 1977, "I have witnessed my patients experiencing an improved quality of life and enjoyment in their remaining time."

What You Will Learn From The Cancer Prevention Diet:

- ✓ Info about Dr. Richardson and his pioneering work into alternative cancer treatments
- ✓ What natural foods and vitamins help your body fight cancer
- ✓ Nutritional recommendations to maintain a healthy life
- ✓ Case histories of people who have "cured" their cancer
