

EMERALD DOWN III:  
2014 Cyber Security Workshop  
*April 1-2, 2014*

EMERALD DOWNS  
2300 EMERALD DOWNS DR.  
AUBURN, WA 98001

We invite emergency managers and affiliated IT support staff, business continuity professionals, control systems technicians, and all other private and public sector cyber security stakeholders from throughout the region to join us for two-days of discussion on current cyber threats and common challenges with managing complex data and access.

**Register today: <http://bit.ly/2014PSCSS>**

**APRIL 1, 9:00 AM - 5:00 PM :**

**Welcome and opening remarks**

Walt Hubbard, Director, King County Office of  
Emergency Management

**Keynote Address "Current Cyber Threats"**

Michael Hamilton, Office of the CIO, State of  
Washington

**SCADA/ICS control systems training**

Billy Rios, Director of Vulnerability  
Research and Threat Intelligence, Qualys

**"From the Perspective of a Hacker"**

Russ McRee, Director, Threat Intelligence  
& Engineering, Online Services Security  
& Compliance, Microsoft

**Panel: Cyber Forensics, Legal Requirements, and  
Business Continuity**

*What records are you required to keep? Why  
is cyber forensics important and what will  
your organization get from your investment?  
How can business get up and running again  
post-attack and how does response impact  
business continuity?*

Vishant Patel, Forensics, Microsoft  
Josh Michaels, Seattle FBI  
Sean Malone, Principal Security  
Consultant, FusionX  
David Mills, U.S. Secret Service

**Cyber Risk Insurance: How Prepared are You?**

Anne Hasenstab, Private & Non-Profit  
Management Liability, Travelers

**AGENDA CONTINUES ON SIDE TWO**

# EMERALD DOWN III:

# 2014 Cyber Security Workshop

## *April 1-2, 2014*

EMERALD DOWNS  
2300 EMERALD DOWNS DR.  
AUBURN, WA 98001

### **Panel: Processes, Policies, and Resources for Working with Law Enforcement**

*When your systems are breached, how do you work with law enforcement? How and to who would you escalate issues? What can you do to work with law enforcement, and what resources are available to your organization to help make response smoother?*

Cory Pritchard, Seattle FBI  
LTC Thomas Muehleisen, Commander, 156th Information Operations Battalion (IOB)  
Lance Fuhrman, Cyber Intelligence Analyst, Washington State Fusion Center  
Mike Germain, U.S. Secret Service

### **Next Steps for the Region**

**APRIL 2, 9:00 AM - 5:00 PM:**

### **Welcome and opening remarks**

### **Policies and Processes for Managing Risk: Supporting employee buy-in, creating resilient policy, and managing personal mobile devices**

Bruce Christofferson, T-Mobile  
David Matthews, Expedia

### **Digital Rights**

Brian Rowe, National Technology Assistance Project

### **Natural Events and their Impact on Cyber Systems**

Jerry Koenig, Seattle City Light

### **All disciplines scenario driven tabletop discussion**

Facilitated by David Matthews, Expedia  
*What are your primary concerns for cyber systems? What are physical or natural concerns that could impact your IT systems? Do you have a continuity of operations plan in place? If yes, is that plan applicable to IT and cyber security concerns? What triggers the plan? Do you regularly test and update these plans? How can you support other organizations in response and recovery? Who would you reach out to for help? How do you communicate with customers? How do you partner for communications?*

### **Next Steps for the Region**
