

INNOVATION
IN ENERGY STORAGE

January 21-23, 2014
Hilton San Diego Resort & Spa
San Diego, CA

SPONSORS

GIGAWATT SPONSOR

Focus Graphite Inc. is an emerging mid-tier junior mining development company, a technology solutions supplier and a business innovator. It is the owner of the NI 43-101 compliant Lac Knife graphite deposit grading 16% carbon as graphite. The company's goal is to assume an industry leadership position by becoming a low-cost producer of technology-grade graphite. As a technology-oriented enterprise with a view to building long-term, sustainable shareholder value, Focus Graphite is invested in the development of graphene applications and patents through Grafoid Inc. Focus trades on the TSX-V under the symbol FMS and on the OTCQX in the U.S. under the symbol FCSMF. Learn more at: www.focusgraphite.com

BREAKFAST SPONSOR

Building on its over 100 year heritage of innovation in power systems, S&C has become a pioneer in battery energy storage with over 17 operational projects totaling 150 MWh of stored energy. This experience includes the first storage projects used to help connect both wind and solar to the grid as well as projects used for islanding, peak shaving, frequency control, energy arbitrage, and in microgrids. S&C's PureWave® SMS and PureWave® CES use field-proven power electronics technology to control battery output and provide rapid response to changing system conditions in utility and community scale energy storage. LUNCH SPONSOR

EnerSys® is the largest industrial battery manufacturer in the world, operating manufacturing and assembly facilities worldwide for customers in over 100 countries. EnerSys is uniquely positioned to provide expertise in designing, building, installing and maintaining a comprehensive stored energy solution for industrial applications throughout the world. The company's products and services are focused on three primary markets: Motive Power, Reserve Power and Aerospace & Defense. Motive Power applications include material handling, railway and mining equipment, while Reserve Power applications consist of telecommunications, datacenters, electronics, security, portable power, switchgear/utility, and sports and leisure. Aerospace & Defense applications include military planes, submarines and tactical vehicles. www.enersys.com

COCKTAIL SPONSOR

EaglePicher Technologies, LLC, an OM Group company, is a leading provider of technologically advanced products and solutions for critical energy storage applications in the aerospace, defense, medical, and alternative/grid energy storage markets. EaglePicher developed the Power Pyramid™ - a patented hybrid solution to manage the supply and demand of wind, solar and grid power. This approach surpasses conventional storage techniques by leveraging the potential of multiple storage technologies, minimizing the shortcomings typically associated with any single electrochemistry to provide optimized performance. Whether it's cutting-edge battery technology research or in mission-critical applications, EaglePicher continues its legacy of high reliability power systems.

TOTE BAG SPONSOR

ATL is a Hong Kong based international company leading in design, manufacture, sales and marketing of rechargeable lithium ion/polymer battery cells and related battery packs and systems. Our lithium battery products are widely used in consumer electronics products like laptop computers, smart/cellular phone, digital media players, digital cameras and camcorders, cordless tools and numerous favors of IT gadgets. In addition to the consumer electronics markets, ATL is advancing to electrical vehicles and electrical energy storage markets. Mission: Aims to be a premier solution provider for green energy storage. See: <http://www.atlbattery.com>
