

## UNDER HIS WINGS COMMUNITY CENTER, INC.

5/27/2014

**RE: Urgent Request**

**Enclosures:** Under His Wings Respite Care Services Brochure, letters of interested persons, personal references, and business card.

Dear Under His Wings Community Members,

As you know, over the years, we have provided housing for as many as ten children at any one time in a three bedroom home. Due to increased demand, we desperately need a larger home to adequately supply the community needs. The owner of the home which we have occupied for the last twelve years has been forced to put the home on the market. Obviously, we do not know if it will take a month or a year to sell. Because of your past support, we need your help! If you would be willing to provide any assistance at this time, we would be very grateful. We are looking for a large home on acreage to accommodate more children. The demand has become increasingly overwhelming in the area of servicing families with special needs children.

We understand that not many people can provide real estate but there are many other assets which can be converted to cash to supply the need. If you have unwanted or unused automobiles, jewelry, real estate, securities, or other unusual gifts of wealth to contribute, you will receive a tax deduction for the value of each item. We are asking at this time for friends and members of our Under His Wings Community to share the information in this packet with others who might be interested in contributing or to make some referrals on our behalf. We understand you may not be able to contribute, however we believe that as a community we will see this happen. Please consider if you may know an individual, a business, organization, or church who might help.

Because the need is urgent, a member of our team will be in touch with you within the coming week to see if you know of anyone who can help us at this time or you can call, text or e-mail me with the information or if you have questions. Please review enclosures for references and further details of our plans for the home.

Sincerely,

Cindy Millsap/Founder
