Many individuals believe that Medicare will pay for long-term care services. In actuality Medicare pays for limited services in the long-term care arena. Join this session to learn what long-term care is, what Medicare will cover, why it is important for the caregiver to know about these services, and how to find other resources to help with long-term care needs.

Evalyn Greb graduated in 1973 with a Master of Science in Social Work, emphasis in Community Organization, from San Diego State University and is a licensed clinical social worker. Evalyn administered eight case management programs for elderly and disabled persons while working for the County of San Diego, as well as the Long Term Care Integration Project.
