

"I Have A Dream"® Foundation
Sun Valley

The 'I Have A Dream' Foundation has opened a new program in Hailey. This foundation adopted the 4th grade class at Woodside Elementary this year and will support these students with tutoring, mentoring, and social enrichment until these 49 students graduate from high school. When they graduate, they will receive tuition assistance towards higher education.

In order to best help these children, we need volunteers to assist them with their English and Spanish school work during our after school program from 2:30 to 4:00 PM at Woodside Elementary. This program will begin the week of September 16th and will continue throughout the school year. If you are able to offer any time for volunteering, please contact me at (208)215-5528 or KenatIHAD@comcast.net. A commitment of just once a week will make a great impact on these students' lives and will increase their chance of success. Thank you for your time and consideration for these children!

Kelly Ortego
Project Coordinator for IHAD Sun Valley
