

Houston, Texas

Friday 3 – Sunday 5 October

Being Love Gateway to Joy

A Two Day Master Class with optional Mentoring Session

The vibration of Love held in thought and emotion is an important foundation for DNA upgrade and cellular re-gensis. When we consciously create the Love vibration it sets in train an energy pulse that ripples through the cells of the body and the auric field.

Love opens the way to Joy

This event follows on from “The Transcripts of Mary Magdalene – Fundamental Aspects of Love” and will prepare you to move into Joy. The November 2014 Sydney Retreat “Joy is Love Expressed” is the third stage of what is a three step process of physical and consciousness energy upgrade.

The Houston event will be energy transference of new and advanced frequencies of Light that go way beyond healing. These energies will be transmitted from multi-galactic sources. There will be seven precisely coded sessions of new information and energy that will quickly and permanently elevate your conscious ability to create and BE the LOVE that YOU really are.

Event Outcomes

- Healing, Regeneration, Revitalization. A complete recalibration and upgrade of your energy system, including the chakras, auric field, cellular memory, energy meridians, dormant aspects of soul, endocrine system and glandular hormonal activity.
- A ‘shift’ in the overall vibratory state of body and mind leading to greater peace, stress reduction and an expanded view of reality.
- An activation of spiritual gifts and abilities.

Testimonial

Since attending the New York retreat nine months ago I have begun to speak Light Languages from Alcyone and Arcturus to heal my own pain and others. The languages are high pitched and very fast. I just seem to ‘know’ how to do it. Thank you for these teachings. Robert T

Date: 5.30 pm Friday 3 October – 3.30 pm Sunday 5 October

Venue: Double Tree by Hilton Hotel, 15747 JFK Boulevard, Houston, Texas
