2015 Volunteer Project and Task Opportunities

Porch Light Project: January – June volunteer position offering Valley residents with non-compliant porch lights a free shield or light/shield combo. 5, 10, 50 hours a month . . . we welcome whatever you can give! Please RSVP to an initial planning meeting Thursday, Jan. 15th at 5 p.m., or Monday, Jan. 19th at 5 p.m. at the Green Coalition Resource Center.

Business Membership Ambassador: Ongoing need to help build our business membership. Help solicit businesses for an appointment with staff and/or meet with businesses to review our business membership program. We will supply all tools needed.

Monthly Living Green Salons: This is a new idea to bring more people to the Resource Center and develop more connection with each other. Help plan one to two salons a month at the Center and occasionally host a salon. From viewing and discussing films to creative writing – we're limited only by our imagination, and would love to hear your ideas!

Food Preparation Summer Series: Help develop and plan 3 classes on food preparation/preservation offered between June and September. Be part of a team bringing together teachers and hosts sharing ways to prepare and preserve our abundant local foods.

Email System Set-up: We're looking for an email system that allows our members to add and delete themselves from project workgroups and committee lists without a lot of hoops to jump through – does it exist? Please clue us in if you know!

New WordPress Websites: We have the sites, now we need a team to design and populate a Coalition website and a Green Living Tour & Home Show specific site.

DonorPerfect Online Database Organizing: Can you please help us figure out how to transfer our Constant Contact database to DonorPerfect, so we aren't managing our membership and contributions on an Excel spreadsheet. Otherwise we have to commit to a $20 per month **maintenance plan with DonorPerfect to get tech support and help just getting set-up.**

OVGC Employee Handbook: Is Human Resources your thing? We could use help to get this project done, no deadline.
