

February 6th, 2014

Teal,

I have been waiting for a quiet time to write this email as I want to be thorough. I'll start with a simple statement. The contribution by the Rapp family is HUGE!!!!

Leadership

You're a natural leader which helps to get the job done. People have fun and enjoy working with you. Your hard working ethic challenges me every day we have worked together. For the many camps you have participated in, we wouldn't have been ready without you.

Spiritual Leadership

You also bring to the table your strong spiritual leadership. During your time you have influenced the hearts of so many workers and helped to bring peace to many situations when there was chaos. Your ability to recognize where we were falling short and how you have stepped up and challenged us all is unmatchable.

Organization

As we always have unexpected situations, you always have been quick on your feet to come up with solutions. On top of that you have helped to hone the organization of the camp when we have hit large numbers. We still have work to do at the levels we are at, and your contribution would be great.

Accountability and responsibility

You have always been respectful of the fact that this camp takes place at my home and you always have gone way beyond what is necessary to ensure that the place gets put back to normal. The level of energy you bring to clean-up has been incredible.

Music

You have led the band and also have been influential in energizing the bands to get the kids going. This year may be a challenge as we don't have the same level of leadership for camp. I could keep going for you!!!!

Rapp Family

The experience of your family with camp is kind of a plug-and-play situation. You arrive and know what to do. Having the beautiful voices of your girls in the band as well as helping with the kids has truly been an asset that we ALL enjoy. Megan has been a champion when it comes to helping with organization of the registration, taking care of the kids who get injured, and anything else that needs to be done. It gets done!!!

Camp is so much more when you participate. I know. I have seen both sides. I wish I could fly you here myself as I would have you participate with every camp.

Blessings!

Tim
