

40-Day Marriage Mission Trips

We envision a world where broken marriages are reconciled and restored. To accomplish this, we embark on two 40-Day Marriage Mission Trips across the United States every year. In between those journeys, we also work in various communities on a national and international level. Our goal is to mend marriages throughout the United States and abroad, reclaiming the territory of marriage and family for God. As Marriage Missionaries, our support can vary, depending on the needs of those we serve. We're available to share our testimony of reconciliation, teach couples hands-on tools to strengthen their relationships, train leaders to implement the ministry of reconciliation, and help churches design comprehensive marriage ministries. As Marriage Missionaries, we raise all our support so there is no financial burden on the churches or couples we serve.

Our Testimony: "A God of Second Chances"

The reconciliation of our marriage after an eleven-year divorce and a distance of over 3,000 coast-to-coast miles is nothing short of a modern-day miracle. Our testimony entitled, "A God of Second Chances," is accompanied by a multimedia presentation that enhances our story and assists us in encouraging others to reconcile broken relationships. The length of our testimony can be adapted to fit a variety of settings including worship services, special events, retreats, conferences, and small groups. In order to facilitate next steps in the process of reconciliation, we follow-up our testimony with a time of prayer ministry.

Marriage Seminars and Leadership Training

Ministry of Reconciliation: This training, for lay leaders and pastors, uses a dynamic relational model to guide and support the implementation of reconciliation ministries in local churches, including a focus on developing a church-wide *first response* to marriages in crisis. In addition, it provides participants with hands-on resources that will help them to more effectively meet the needs of couples in crisis and those who are separated.

Building a Comprehensive Marriage Ministry/Team Training: We come alongside church leaders and ministry teams to assess the needs of the marriages in their congregation, develop short and long-range plans based on those needs, and assist in the design of a comprehensive marriage ministry—one that is sustainable and effective over time.

Discovering God's Vision for Your Marriage: This seminar provides couples with hands-on training and applicable tools to help them gain a more godly perspective on their marriage. It is appropriate for all marriages, no matter where they may be in their stage of development. Topics covered include: incorporating prayer into the relationship, structuring weekly devotional time together, utilizing accountability/prayer partners, and accurately measuring the development of the marriage so that it progresses toward the intimate relationship God intended it to be. (Note: Modifications are made for those who—for whatever reason—may be attending without their spouse.

Marriage on a Mission: This seminar helps couples understand that God has a mission for every marriage. Participants are given the opportunity to begin the process of discovering what God has in mind for them, and to set an intentional course of taking their sacred journey deeper into the heart of God.
