

TESTIMONY OF MARY FAITH

Hi. I'm Mary Faith – the woman who Todd asked people to follow out of the room. I had no idea how many of the youth and some adults came out.

They prayed for my right knee, bad arthritis and torn meniscus. My pain level went from 10 to 4 the first time. They all prayed again and the pain went to zero. For the first time in 6 months, I was able to straighten my leg. I turned around to thank people and saw the vestibule was full. Today my knee is burning so I know there is still healing going on. I walked away Monday night not using my cane. The next day it was sore again and I used the cane. I have not used it since yesterday afternoon.

Thank you all for your prayers and calling on the healing power of Jesus. To the glory of God! AMEN!
